

Rod Hernley

Networking, Software, and Security Specialist
Electronic Devices, Inc.

Rod has been working at Electronic Devices, Inc. (EDI) since 1997. He specializes in networking, software use and evaluation, and security systems. Like everyone at EDI, Rod also builds and repairs computers of all types and sizes.

Prior to working for EDI, Rod spent nearly 20 years working for the State of Colorado as an IT Director for the Colorado Department of Personnel. He was subsequently self employed as a computer consultant for nearly another 10 years.

Rod graduated from Goshen College in 1966 with a degree in History and Political Science. His first jobs after college were in the photography and newspaper world, where he worked as a free lance photographer and later as a newspaper editor.
